

CLAIMS

What is claimed is:

1. A dynamic and static magnetic pulse physical therapeutic apparatus, including a shell, a far infrared radiation fin with a heating device, a plurality of annular permanent magnets and a control circuit; wherein a dynamic magnetic pulse assembly or a static magnetic pulse assembly is provided at the center of the annular permanent magnet.

2. A dynamic and static magnetic pulse physical therapeutic apparatus, wherein five annular permanent magnets are provided at the four corners and at the center of the shell, and a dynamic magnetic pulse assembly is provided at the center of each of the annular permanent magnets at the four corners of the shell and a static magnetic pulse assembly is provided at the center of the annular permanent magnet at the center of the shell.
